

NBN Broadband Offer –
Fibre (FTTP, FTTN, FTTB) &
Fixed Wireless Broadband

We are forced to provide this Critical Information Summary as most providers try to trick you into fees and charges. We have nothing to hide and this is the same as the page you have just come from.

Information about the service

NewSprout's NBN Broadband service supplied over the National Broadband Network's Infrastructure to your premises.

We will perform a Service Qualification of your number/address. If successful we will provide the fastest speed available for your purchased plan.

Please note the name of the plan is not necessarily the speed you will get. It is the theoretical maximum speed that can be achieved.

The NBN™ and it's backhaul providers are in complete control of the Connectivity Virtual Circuit's (CVC's) and end user demands. If you do not get the full speed of the plan you purchase these are some of the reasons why:

- i). The aggregators/wholesalers (in other words the middlemen: the Optus' Wholesale's, the Telstra Wholesale's, the AAPT's, etc) all purchase and on-sell bandwidth (from the NBN™) and ports and tails (all from the NBN) to us the Internet Service Provider's (ISPs) or Retail Service Provider's (RSP's). If enough bandwidth is not purchased, i.e. the CVC bandwidth, then your NBN speed will be affected.
- ii). The NBN™ project and pricing is still very high comparative to the rest of the world, making bandwidth pricing expensive.
- iii). The ISP's or RSP's (like ourselves, NewSprout, and others), the actual Service Providers who sell these NBN services are dependent on the wholesale providers above. But we are here to help you as much as we can to get the best out of your NBN service.

For a cancelled service:

- No cancellation fee.
- The final monthly invoice is due in full. But no other monthly payments will be due, there is no contract locking you into monthly payments.
- Please Note: No part-refunds or full-refunds will be provided by NewSprout for the final month for any cancelled service. Failure to give cancellation notice of the service at least 14 days before the next invoice's Due Date, or if the service is still active for part of the following month after cancellation has been requested, will result in an additional monthly invoice being generated. This invoice (together with any outstanding invoices) will become the final payment that is due in full.

In summary:

- The final Month to Month bill is due in full together with any unpaid and/or outstanding fees

Peak/Off Peak Allowance: We have a combined allowance. There is no separate Peak or Off Peak data.

Speeds: The speeds offered on NewSprout's website are the only speed tiers offered by the NBN™, however these are the theoretical maximum speeds with no guarantees offered. The NBN™ and the access provider/s (wholesale providers) currently Optus and AAPT offer no guarantees.

CRITICAL INFORMATION SUMMARY

Excess Usage: No Excess Usage – if your data limit is exceeded the speed will be slowed or shaped to 256Kbps (unless you login to our client area and choose to pay for an upgrade or top-up your data).

Charges and Usage

1. Month to Month term
2. Dynamic IP address
3. No credit card surcharge. No PayPal surcharge. EFT (or Bank Transfers) incur an admin charge of \$2 per transaction
4. A late payment fee of \$30 may apply if you don't pay your bill by the due date.
5. No excess usage charges – shaped to 256Kbps
6. Plan upgrade, downgrade and top-ups available to purchase
7. No Early Termination Fee for 1st connection - We cover the first Early Termination Fee (ETF) for you for any broadband service cancelled within a 6 month period after activation. No fees charged to you. However, if you choose to signup again (and we hope you do) then if the new broadband service is cancelled again (i.e. a 2nd time) within 6 months from the new activation date, an ETF fee of \$100.00 will apply for each cancellation after the first one. This ETF will only apply within a 6 month period and if we have notified you and you agree to it before signing up.
8. Check your current Broadband usage by logging into your secure client area under “My Services” > “View Details”: <https://myaccount.newsprout.com.au/clientarea.php>
